In addition to the video-instructions we have summarized the most important points of the registering-process for your convenience. Please store this file at a safe place or print it out.

Note: We are not responsible for inappropriate use of the product. Please refer to our conditions of use which you will find at: <http://www.mydogback.com/shop/conditions.php?language=en>.

Thank you for buying a myDogBack/myCatBack-product from our assortment.

myDogBack/myCatBack is an internet based Lost & Found-Service for dogs and cats. Any finder of your animal can get in contact with you through this platform without knowing your address. We protect your address! As soon as a message is entered and sent, you will receive an email through our service – without time delay by other services, long-winded researches or missing tools for identification. Only if you act (calling the finder, sending him an email) the anonymity is waived – you decide, to whom you want to communicate your data!

Besides you preserve your dog/your cat, because no painful tattoos (which soon are already no longer readable) or microchip implants are necessary in principle to use our service. We believe that you shouldn't force your animal to a risk, no human would want for themselves by choice.

By the multi-linguisticness of the products and services we are able to bring together finder and owner – worldwide.

Our products are fashionable pieces with a valuable function. We only use first-class material in high-quality procession. You will receive a product „made in Germany“!

If you should have a question regarding myDogBack/myCatBack-products or our services, send us a message to support-en@mydogback.com.

Please continue to recommend us to others, so that many owners of dogs and cats can protect their loved animals with myDogBack/myCatBack.

We hope the fact that you will never need myDogBack/myCatBack – and if nevertheless, then your chance to get your animal back has risen around 100%.

With regards,

Your Ralf Seybold

This is how to register a myDogBack/myCatBack-product:

1. Please visit <http://www.myDogBack.com> or <http://www.myCatBack.com>.
2. Move your mouse to the „Register KEY“ – Symbol or on the menu at „Register KEY“.

3. Now you can enter your KEY.

Register your KEY

KEY

Securitycode

You will find the key on the myDogBack/myCatBack-product. On the tags for example you will find the key in the bottom line. The key contains numbers and characters. Enter the KEY into the field KEY.

After that you have to repeat the security code (see above PBEK).

Now click on CHECK.

4. After that you will be questioned whether you already have an account with myDogBack or not. If you have already registered a key with us, choose YES, otherwise chose NO.

5. Please enter your account-information:

Create new account

Username

Password

Password (Repeat)

Your USERNAME must be a valid Email-Address. This is the address on which our system will send the REPORT DOG/CAT FOUND-Information.

Your password must contain characters and at least 1 number. It should not be shorter than 6 characters.

Now your myDogBack/myCatBack-product is ready to use. When your dog or cat will be found by someone, it can be reported found by entering the KEY on the tag.

If you wish, you could personalize your product. That could be useful but it is not necessarily needed.

To provide best service, you should personalize it.

6. Overview

After logging into your account you will always receive the following overview:

You have no new [message](#)

If a message was sent to you, you will be informed here.

7. Details

In the „Details“-Area you can enter personal details. You choose your language, in which you want to receive emails from the system and you can change your Email-Address or your password. In order to benefit from further services, you can enter your address and/or telephone-number etc.
